2017 Core Focuses

Editor, Customization, REST API

Predictable release cycles

New default theme every year

New Structure

for WordPress releases

Core

Performance & Bug fixes

The REST API

REST API

- Measure Output not Input
- First party usage of the endpoints in Admin
- Replace admin-ajax

The Customizer

Customizer

- Speed: Instant changes
- Bring over fundamental Editor building blocks
- Customization “outside of the box” of post content
